

Use the diagram below to answer the questions on this side of the sheet. Only write in the left column. We will fill in the right column together as a class as needed.

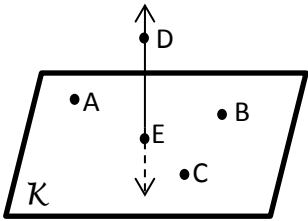

*Your Work:*

*Corrected Work:*

1. Name the line 3 different ways.	
2. Name the segment 2 different ways.	
3. a. Name the ray.  b. Can the ray be named another way? Why or why not?	
4. Name the two objects that are perpendicular. Include the perpendicular symbol.	
5. Name 3 collinear points.	
6. Name the two right angles.	
7. Name a point.	

Use the diagram below for #8-12.

**Your Work:**

**Corrected Work:**

8. Name the plane 2 different ways.	
9. Are A, B, C, and D coplanar? Explain why or why not.	
10. What is the intersection of the line and the plane?	
11. Draw a segment on the plane above using points that are already given. Name it below.	
12. Draw a line on the plane above using two different points than in #11. Name it below.	
13. Draw a set of parallel lines and name them. Make sure you use the symbol for parallel when you name them.
