Intro to Geometry (HSS-CP.A.4)	Name: Period:					
Unit Six: Probability – Frequency Tables (HW4)				Period:		
1. The boys and girls of a class had been surveyed about w The two way table shows the results of the survey.	hether they h	ad rece	eived a	speedi	ing tick	et or r
a) What is the probability of getting a speeding ticket?		1	peedin Ticket		Speed Ticket	
b) What is the probability of being a girl with a speeding ticket?	Во	, [9		31	4
c) What is the probability of being a boy with	Girl	¹L	1		25	2
no speeding ticket?	То	tal	10		56	6
d) Who is more likely to getting a speeding ticket, boys or gi	rls? Roys	or Girl	ς	Exnla	in your	choice
e) Are boys and speeding tickets independent or not? Yes	s or No					
Use mathematics to explain your choice.						
2. 12 boys and 18 girls were surveyed about whether they picked pizza and 10 girls chose hamburgers. Complete the	-		_			ents
probabilities.	two way tab	ie aliu i	ileli de	termin	ie tile	
a) What is the probability that a hamburger						Total
is the favorite?		-				
b) What is the probability that you picka boy that likes pizza?		-L				
c) What is the probability that you pick a girl?	Total	al				
c/ what is the probability that you pick a girl:						
d) Given that a hamburger was selected, who is more likely	to select it, a	boy or a	a girl?			
e) Given that a girl was selected, what is the probability of s	electing pizza	?		_		
3. The following relative frequency table was created from		Red	Green	Blue	Yellow	Total
the data gathered from a survey about favorite colors.	Male	.24	.14	.18	0	.56
a) What is the P(Red)?	Female	.16	.16	.06	.06	.44
b) What is the P(Female)?	Total	.40	.30	.24	.06	1
c) What is the P(Female and Blue)?	Total	.40	.50	.24	.00	•
d) What is the P(Red or Green)?						
\\\\\\\\\\\\\\\\\\\\\\\\\\\\\\\\\\\\\\						
e) What is the P(Male and Not Green)?						

4. High Schools were surveyed about whether they owned	Toto			
a Playstation or a Wii. Of the 100 surveyed 70 owned Wii, 23 didn't own a Playstation, and 9 didn't own either				
system.				
a) What is the P(Playstation)?	Total			
b) What is the P(No Wii)?				
c) What is the P(Playstation and Wii)?				
d) What is the P(Wii and No Playstation)?				
e) What is the P(Playstation or Wii)?				
f) What is the P(Neither System)?				
g) Are owning a Playstation and owning a Wii independent of Use mathematics to explain your choice.	each other?	Yes o	r No	

- h) Why do you think that the two are not independent of each other? Why would one possibly influence the other?
- 5. The town of Centerville is divided by a railroad track that splits the population of the town into two groups, the North side and South side of town. Centerville is having an election for the mayor; Tim Jenson is running against Joe Smith. If the side of town that you live on is independent of the candidate that you will choose, how many people do we expect on the North Side to vote for Joe Smith?

	Jenson	Smith	Total
North		??	60
South			40
Total	50	50	100
